1 May 1978

MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with Secretary Brown,  
28 April 1978

Addendum to Paragraph 1:

a. In this connection, I mentioned to him that we were having some problems with an inability to get the program managers to talk about their programs ever since [redacted] began attending the NFIB meetings. I made it clear I was not complaining about this but simply that there was an understandable problem that when the Defense position had been hammered out in advance the program managers were reluctant to discuss contrary views in front of Dan. Harold Brown acknowledged that this seemed to be a problem to him. I reemphasized that I was not making any request or any specific complaint. He acknowledged that and indicated he did recognize there was a problem and that he would think about it.
